

DFP NEWS

Your source for important information and specials in the Touch-Up Industry!

Volume One Issue 8 May/June 2005 Published by DFP Inc. ©2005

Steel wool is one of the best tools that a woodworker, touch-up professional or anyone else dealing with a finish could have!

Steel wool can be used for numerous industrial, professional and maintenance applications. Whether you use it for clean-up, surface material removal, stripping, or rubbing down a finish we have got the steel wool grade for you.

As a matter of fact, DFP has North America's softest steel wool! Our 6/0 steel wool is softer than any other steel wool available to professionals anywhere

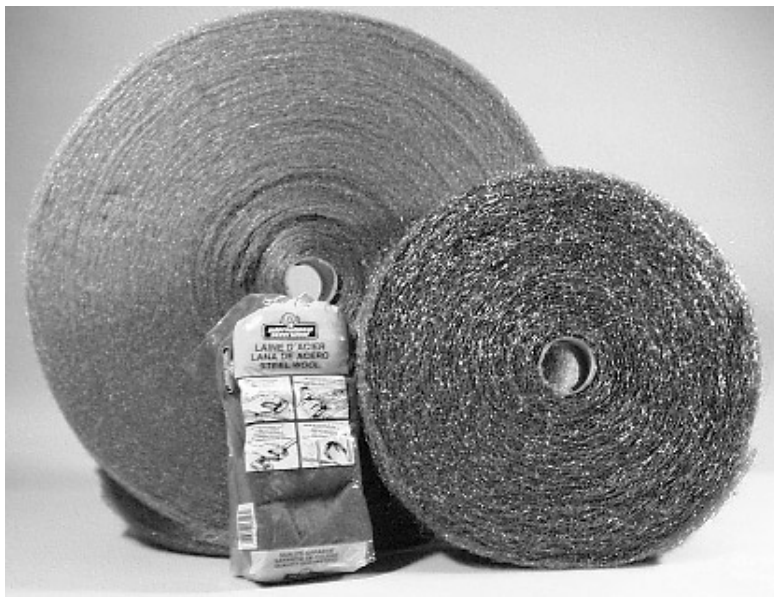

in North America! If you have not tried it yet call us to get a free sample and you will discover how smooth it is.

TIP OF THE MONTH

Whether you use steel wool or Scotch Brite to smooth finishes, remove overspray, packing marks and/or fingerprints, be sure to always use **Gel Lubricant Rubbing Material.**

See pages 12 in our catalogue.
