As we approach the end of 2006, there are quite a few trends affecting our industry. From the impact of the rising volume of imports to ever-increasing wood costs and stricter environmental laws, change is all around us and not all of it good.

At DFP, our focus is on providing solutions to meet these changing industry requirements. From after-sales kits to help reduce service calls and costs to ongoing research into water-based Pro Finish aerosols, we work to anticipate the needs of a market going through a great deal of transition.

With your continual input, we hope to help our customers work through these changes and turn adversity into opportunity.

Come and see us at the TCHFM (Canada's third largest trade show) in Toronto, Ontario, booth #607, from January 13-16, 2007. Along with great show only specials we will be launching our newly redesigned Trade Secret® Furniture Restoration System. As usual our sister company, Doverco, will be there with offers on all your packaging, warehousing, and moving needs.

HAPPY HOLIDAYS
